

# SHEEPSKIN

SEAT PAD

MODEL# DCX0517

**100% Natural Sheepskin**

This plush natural Merino sheepskin seat pad is as effective as a full seat cover at 1/3 the cost. It protects your seating surface and provides natural air circulation in all weather. The genuine wool fiber has just enough resilience to make a difference in seating comfort. It measures approximately 16"W X 15"L, and tapers slightly to 13" in the rear, is shaped to fit your seat and has a non-skid bottom that keeps the pad in place whenever you turn to get in or out of the vehicle. It is washable\* and guaranteed for workmanship and performance. This item is imported.

## Features

- 16" wide x 15" long (11 ounces)
- Genuine Natural Wool - plush and soft
- Non-skid Bottom - stays put
- Nature's thermostat - cool in summer - warm in winter
- No Maintenance - durable - washable\*
- Guaranteed workmanship and performance

## Care\*

If it gets wet, just shake to remove excess water and allow to air dry. It is normal for sheepskin wool to mat after extended use; this is cosmetic and does not affect the properties of the natural wool fibers. To restore your sheepskin to its original appearance simply shake and comb with a soft brush.
