

**DRIVER COMFORT  
FLUIDIZED GEL CUSHION**

**MODEL # DC0114**

**WITH AIR-FLO BREATHABLE FABRIC**

SKWOOSH™ patented fluidized gel provides medically proven pressure relief in a lightweight comfort cushion. The Driver Comfort gel cushion is designed to relieve pressure for anyone who spends significant time in their vehicle. It helps maintain circulation, reduce lower back discomfort and ease pressure on the Coccyx. The 1" height does not interfere with factory designed seat ergonomics, seat height, pedal distance or leg angle. Driver comfort is enhanced by SKWOOSH's "Driver's Angle Design" built so the front of the cushion flares out to match the natural leg position while driving. Four independent gel packs, located under the "sitz" bones and the upper thighs, provide pressure relief and aid circulation. The gel packs also help position the knees just outside the hip line to facilitate leg movement while driving. A slight forward tilt helps relieve spinal pressure and the integrated Coccyx-Ease design helps to relieve spinal pressure.

It is waterproof, washable, has Air-Flo breathable comfort top fabric, carry-handles and folds for convenience. The unique folding design allows the DRIVER COMFORT to fit all styles of auto and truck seats. The non-skid bottom keeps it in place. There are no bulky covers, heavy hard gels, pumps or inflation levels to worry about.

SKWOOSH™ is made in the USA and is guaranteed for workmanship and performance.
