ARTHRO

T.A.G. Small Joint Instruments

In order to accommodate individual surgeon preferences, American Medical Endoscopy paired with T.A.G. Medical Products to offer a full line of Arthroscopic Instruments.

T.A.G strives to provide the finest quality engineered products and ground floor research for the world's leading surgeons enabling it to solidify a pioneering role in the world of advanced surgical techniques. From heat-treated stainless steel, to wire EDM technology, all of our instruments offer excellent strength and first rate craftsmanship.

Containing over fifteen instruments offering a solution for every angle, the small joint line has been adapted from instruments previously developed for large joint arthroscopy. They have been downsized and altered for use in the smaller confines of joints minimizing the risk of articular cartilage damage.

T.A.G. Instrumentation

The distinctive design of TAG's instruments allows for unprecedented comfort, precision and security to for retrieval, penetration, cutting and holding of tissue and suture.

Forceps, Scissors & Probes

TAG-138004
90° probe

TAG-138003
Straight probe

TAG-138013
30° probe

TAG-701112
2.1mm blunt nose forceps, right

TAG-701122
2.1mm blunt nose forceps, left

TAG-701131
2.1mm blunt nose 15° forceps, up

TAG-701151
2.1mm blunt nose forceps, down

TAG-705100
2.5mm, scissors

TAG-727131
2.7mm grasper, up

TAG-725100
2.5mm grasper

TAG-727100
2.7mm blunt nose forceps

TAG-701100
2.1mm blunt nose forceps, straight

■ Safety Mechanisms

■ **TAG-7gsp2**
Safety Mechanism set 0.6

■ **TAG-7gsp6**
Safety Mechanism set 0.4

■ Shear Pin Set

■ **TAG-7gsp3**
Shear pin set for penetrating grasper

■ Arthroscopy Sheath & Optik

■ **STS-ART-201-27-SET**
Arthroscopy sheath
Continuous high flow
Rotatable with 2 stopcocks
Conical blunt obturator
Works with 0° to 70° scopes
Size: 2.7mm
Length: 110mm

■ **STS-1027-110BA**
HD Arthroscope
Color coded red
Diameter: 2.7mm
Working length: 110mm
Angle: Wide
View: 30°
