DISCLAIMER:

USDA research has found that nutritional values of foods can vary between individual samples of a particular food as much as 20%, due to such factors as season, soil conditions, region of the country, product suppliers and other factors. Therefore, data listed of the nutrition reports represent approximations only and fall within the Food and Drug Administration's allowable variance. The values listed in the Nutrition Facts column on the reports are rounded according to FDA guidelines.

Individual foods may come into contact with one another during preparation which is not reflected on this chart.
